**"Ask the Woman Who Owns One"**

The average woman who has not bought an electric washer wonders "Will it really wash clothes so spotlessly clean that it will satisfy my extreme demands?"

Heretofore women have invariably wanted an actual demonstration—with their own clothes—in their own homes.

Today it is no longer necessary to PROVE to the purchaser of a high-grade automobile that it will actually RUN.

When you buy an A-B-C Super Electric you have the same assurance of absolute, unflinching satisfaction as when you buy a Packard.

The A-B-C is the "Packard" of electric washing machines.

The A-B-C cylinder reverses after each revolution, combining all the worth-while features of both cylinder and "rocking-tub" types of washers. It's the most noiseless machine made; its full cabinet body makes it the absolutely safe washer; its adjustable belt drive prevents costly motor burnouts; its swinging electric wringer operates in any position; its motor is 50% oversize. The A-B-C has fewer moving parts than most washers—nothing complicated to get out of order.

**Service Includes Everything**

When Mr. Donnelly emphasizes the service end of the Baxter Piano Co., he is emphasizing the firm as a whole. He is making important the satisfaction of the customer in his purchase, and the indirect satisfaction of our company as reflected in the reliance placed in our name.

When a member of this community contemplates the purchase of a piano he is not so greatly influenced by its appearance, or even by the name of its builder, as by our endorsement of its qualities. No greater is needed than our experience, our knowledge of the inside facts of the matter, and above all, our reputation for dependability.

All this is included in the word "service", and Mr. Donnelly, with his salesforce back of him to a person, emphasizes service.
